Dear Sirs/Mesdames

AUDIT FINDINGS REPORT – KNIGHTSFIELD SCHOOL

During the audit of the financial statements for the year ended 31 August 2019, we examined and sample tested the accounting systems which the academy trust has established to ensure that the accounting records are accurate and reliable and to ensure that its assets are safeguarded.

We enclose a report which details weaknesses in accounting and internal controls which came to light during the course of the audit.

The report includes explanations of how the weaknesses could affect your business and our recommendations on how to improve the systems – see appendix 1-4.

Our report also includes details of recently released accounting standards and legislation which we would like to bring to your attention – see appendix 5. This section is for information only.

We have also included in this report a schedule showing the adjusting and unadjusted journals found during the audit – please see appendix 6.

We would like to take this opportunity to thank you and your staff for the assistance given to us during the course of the review.

If you wish to discuss any of the issues raised in the attached appendix in more detail, please do not hesitate to contact us.

Please note that the report has been prepared for the use of the Directors only.

Yours faithfully

1. Scope of the audit

Our audit was carried out in accordance with Auditing Standards and with reference to the legal and regulations requirements as detailed in Section 3 of this report. Our audit approach is designed to ensure that our tests are focused in those areas where in our judgement the risk of errors is high, and where the likely impact of such errors would be significant. More specifically, this involved:-

- a. Subjecting systems, controls, transactions and balances to substantive testing on a sample basis;
- b. Revising our audit plan for any significant financial matters;
- c. Subjecting the financial statements to detailed analytical review, examining key ratios, trends and other statistics, obtaining and testing explanations for any unusual or unexpected variations;
- d. Reviewing minutes of meetings;
- e. Reviewing statutory financial statements where prepared by the Academy.

It must be appreciated that the matters dealt with in this report arose from the conduct of our normal audit procedures which are designed primarily to enable us to express an opinion on the financial statements of the Academy and do not necessarily involve an examination of all aspects of your internal control procedures. The responsibility for maintaining adequate financial reporting systems and systems of internal control, as well as for the prevention and detection of fraud, irregularities, and other errors, rests with Directors.

For the above reasons, our comments cannot be regarded as a full analysis of all the weaknesses or irregularities in the system of internal control or of all the financial trends or other performance data relevant to the Academy's which might be disclosed by a more detailed review nor, since we are not specifically required to search for fraud, can our audit be relied upon to disclose such matters. However, our audit was planned so that we would have reasonable expectation of detecting material misstatements of the financial statements.

This report has been prepared for the private use of the Directors and its contents may not be disclosed to any third party without our express written consent. We assume no responsibility to any other person.

2. Independence Issues

On 25th July 2019 we wrote to you identifying our perception of the principal threats to our objectivity and independence in carrying out this audit, along with the safeguards in place to mitigate those threats.

The principal threats and safeguards are repeated below:-

Principal threats	Safeguards Implemented (and why they are considered effective)
<p>We are responsible for the preparation of the financial statements in addition to carrying out the audit. The service will not involve initiating transactions.</p> <p>There is a threat that, as a firm, we are perceived as being too closely aligned with the views of management to provide an independent review and/or that members of the audit team could be reviewing their own accounting work.</p>	<p>It is agreed that a senior staff member, will carry out a review of the financial statements. This will mitigate the threat of being too closely aligned with management and ensure that all accounting judgements are impartial and that the service is just one of a technical nature.</p> <p>Please see the below comment with regard to the independent principal review of the audit, which will address the self-review risk, as all audit work will need to be clearly explained.</p>
<p>We are responsible for the preparation of the Corporation Tax Return and the calculation of the associated tax liability in addition to carrying out the audit. However, as directors you remain responsible for both accounts and your Tax Returns. As independent auditors we cannot take any decisions that rightfully belong to management. Accordingly, if there are any decisions relating to the accounts or treatment of items on the Tax Return we will explain your options in layman's terms.</p> <p>However, you must make the ultimate decision.</p> <p>There is nevertheless a threat that, as a firm, we become perceived as being too closely aligned with the views of management to provide an independent review and/or that members of the audit team could be reviewing their own tax work.</p>	<p>We have extended the cyclical inspection of our completed audit engagements that is performed for quality control purposes to include a random selection of audit engagements where non-audit services have been provided.</p> <p>This independent review will comment on whether the safeguards being implemented by the firm on all audit clients are sufficient to address the threats identified.</p> <p>The independent review will also comment on whether audit work is being conducted in accordance with relevant standards and will ensure that sufficient audit work has been carried out, regardless of who prepared the original data.</p>

<p>We are responsible for carrying out the role of responsible officer/internal audit.</p> <p>There is a threat that, as a firm, we are perceived as being too closely aligned with the views of management to provide an independent review and/or members of the audit team could be reviewing their own accounting work.</p>	<p>The role of responsible officer/internal audit will be carried out by a member of staff from a different office of Wilkins Kennedy or from our internal audit team who has no connection with the statutory audit work being carried out.</p>
---	--

We consider that the safeguards in place have been sufficient to ensure our independence and objectivity has not compromised during the course of the audit.

3. Compliance with Legal and Regulatory Requirements

In undertaking our work, we reviewed compliance with the following legal and regulatory requirements:-

- Relevant Academies Accounts Direction issued by the ESFA
- Applicable accounting standards (UK Generally Accepted Accounting Practice)
- Companies Act 2006
- Charities Statement of Recommended Practice (SORP) 2015

No matters came to our attention that suggested any significant breach of these requirements

Appendix 1 – Executive Summary

From the review performed, the issues noted during the review are as documented below (Significant, Important, Limited, Advisory):

Issues identified in current year audit

Issue	Recommendation	Management Response
No fixed asset register is maintained	Repairs and maintenance codes are reviewed on a monthly basis to see if any items are above the capitalisation threshold. Adjustments are then done on the fixed asset register and the accounts system so that they are always kept up to date. Depreciation is to be calculated in line with the policy and posted to the accounts system.	A spreadsheet of fixed asset purchases <u>was maintained</u> but the software did not allow for depreciation. The school was therefore aware of all assets should the need arise for an insurance claim. We will update the new spreadsheet provided by Wilkins Kennedy and post manual depreciation journals annually
Income has been offset against expenditure.	When income is entered on to the system it is posted in accordance with the necessary explanations for the financial statements (i.e. Other DfE grants or LA) and not posted against the corresponding expenditure.	This will be done from 1 st September 2019
Companies House filings are not up to date	Changes to trustees should be filed promptly with Companies House.	Agreed. A parent Trustee resigned on 5.11.19 and Companies House was updated promptly
Management accounts do not contain cash flow forecasts	Cash flow forecasts must be completed in accordance with the 2018 Academies Financial Handbook Section 2.3.3	Cash flow forecasts will be included from November 2019
Gifts policy does not refer to the giving of gifts	The gifts policy should be revised to show the treatment for the giving of gifts per the 2018 Academies Financial Handbook Section 3.9.1	The Gifts Policy has been updated to include gifts given by Knightsfield School to a maximum value of £30
Alcohol was purchased during the year	The purchase of alcohol is prohibited per the Academies Accounts Direction 2018 to 2019 and should not be purchased.	The alcohol was purchased from school PTA funds which are held in the School Fund account in November 2018 BEFORE the Academies Financial Handbook 2018/19 guidelines changed

1. FIXED ASSETS REGISTER

Observation

Throughout the year the fixed asset register to show items capitalised within the accounts is not kept up to date and the depreciation calculated there on was not calculated. In addition, depreciation and capitalised assets were not posted to the financial system.

Issue

The Governors are responsible for safeguarding the assets of the academy.

The Academy has no means to control all the assets owned unless there is a comprehensive list of all items that agrees to the value shown in the accounts.

Fixed asset registers can also be used in the event of an insurance claim if property and fixtures have been destroyed by fire.

Recommendation

We recommend that the Repairs and maintenance codes are reviewed on a monthly basis to see if any items are above the capitalisation threshold. Adjustments are then done on the fixed asset register and the accounts system so that they are always kept up to date. Depreciation is to be calculated in line with the policy and posted to the accounts system.

Client response

A spreadsheet of Fixed Assets was maintained by the school so the school was aware of assets should the need arise for an insurance claim.

The existing spreadsheet did not allow for depreciation and as the FMS software for the asset register is corrupted depreciation was not processed.

The school will update the register provided by Wilkins Kennedy and ensure depreciation journals are processed before the next audit.

2. COMPANIES HOUSE FILINGS

Observation

It was found that Companies House had not been updated in a timely manner with changes to trustees.

Issue

There is a requirement to keep Companies House up to date with any changes to trustees.

Recommendation

We recommend that Companies House is reviewed and updated on a regular basis.

Client response

There was one change to trustee membership that was missed.

One parent Trustee resigned in November and Companies House was updated promptly.

3. GIFTS POLICY

Observation

The results of our audit work showed that the academy does not have formal policies in place for gifts & hospitality given out to staff.

Issue

The Academies Accounts Direction states that policies should be in place for gifts and hospitality for both receiving and giving. These policies must be approved Governors.

Recommendation

We recommend that the gifts policy should be revised to show the treatment for the giving of gifts per the 2018 Academies Financial Handbook Section 3.9.1.

Client response

The Gifts Policy has been updated to include Gifts up to a value of £30 given by Knightsfield School. The policy was approved by the Resources & Audit Committee at its meeting on 13th November 2019.

4. POSTING OF INCOME

Observation

Income received is offset against the corresponding expenditure.

Issue

There is a risk that the user of the accounts understanding of income received and expenditure incurred is impaired as the accounts would not show the correct values.

Recommendation

We recommend that when income is entered on to the system it is posted in accordance with the necessary explanations for the financial statements (i.e. Other DfE grants or LA) and not posted against the corresponding expenditure.

Client response

We agree with your recommendation. In the 2019 accounts no income will be vired to expenditure accounts.

5. MANAGEMENT ACCOUNTS

Observation

It was found that the monthly management accounts do not include a cash flow forecast.

Issue

There is a requirement to prepare cash flow forecasts.

Recommendation

We recommend that cash flow forecasts are completed in accordance with the 2018 Academies Financial Handbook Section 2.3.3

Client response

Knightsfield School will include Cash flow forecasts with monthly management accounts from November 2019.

6. PURCHASE OF ALCOHOL

Observation

It was found that alcohol was purchased during the year.

Issue

The purchase of alcohol is strictly forbidden.

Recommendation

We recommend that alcohol is not purchased as it is prohibited per the Academies Accounts Direction 2018 to 2019.

Client response

This was purchased in November 2018 BEFORE the Academies Financial Handbook guidelines changed. The alcohol was purchased using PTA funds that are held within the School Fund account.

In 2019 the PTA balance will be debited from the Fund account and a separate bank account opened.

No further alcohol will be purchased to comply with current Academy Accounts Direction guidelines.

1. VAT – AUDIT REVIEW

Observation

The academy is currently not VAT registered and reclaiming VAT via the Form 126.

Issue

Our audit does not examine VAT in detail and our audit procedures are not designed to detect immaterial fraud or error. Therefore, we have not reviewed individual streams of income to:-

- (a) Assess whether the academy is over the VAT registration threshold
- (b) Ascertain whether the VAT reclaimed is correct

There are a number of income streams that may be liable to VAT, we have provided some common areas below, but please note this is not an exhaustive list:-

1. Contracts whereby you receive commission or the net of income/costs for items such as uniforms. The contract may be worded in such a way that you are actually the primary supplier and not an agent, if this is the case then you may be liable to register and charge VAT on these items.
2. The sale of meals to staff is a supply liable to VAT. The VAT treatment of outsourced catering contracts means that an Academy will act as principal in the sale of all meals. The sale of a meal to a member of staff (not a duty meal) will count towards the VAT registration limit.
3. Certain supplies under salary sacrifice schemes can have a VAT implication either as the amounts count towards the VAT registration limit or VAT on expenses could be restricted.
4. Although the majority of income from letting the premises will be exempt depending on the exact nature of the "let" and to whom the let could be "taxable". If additional services are supplied as a separate cost they would be seen as taxable. Any charges for parking would be taxable.

From experience most Academies have some business income and if not VAT registered we would expect there to be some irrecoverable VAT and the Academy carrying out the appropriate restrictions and checks on the VAT claimed via the VAT 126 form.

Recommendation

We recommend that a separate VAT audit is undertaken if required.

2. RELATED PARTY TRANSACTIONS AND CONNECTED PARTY TRANSACTIONS - REMINDER

Observation

Related party transactions continue to be of keen interest to the ESFA and they have clarified a number of points in the Academies Financial Handbook 2019.

Issue

The board **MUST** ensure requirements for managing related party transactions are applied across the Trust. The Chair of the Board and the accounting officer **MUST** ensure their capacity to control and influenced does not conflict with these requirements. They **MUST** manage personal relationships with related parties to avoid both real and perceived conflicts of interest.

Reporting of related party transactions to ESFA

The Trusts **MUST** report all contracts and other agreements with related parties to ESFA in advance of the contract or agreement commencing, using ESFA's related party on-line form. This applies to all such contracts and agreements made on or after 1 April 2019. There is no de-minimus in place.

Approval of related party transactions by ESFA

Trusts **MUST** obtain prior approval from the ESFA for contracts for the supply of goods or services to the trust by a related party where:-

- A contract or other agreement exceeding £20,000
- A contract or other agreement of any value that would take the total value of contracts with the related party beyond £20,000 in the same financial year
- A contract of any value if there have been contracts exceeding £20,000, individually or cumulatively, with the related party in the same financial year

Trusts **MUST** obtain ESFA's approval for transactions with related parties that are "novel, contentious and/or repercussive":-

- Novel – transactions which the Trust has no experience or are outside its range of normal business
- Contentious – transactions that might cause criticism of the Trust by Parliament, the public or the media
- Repercussive – transactions that are likely to cause pressure on other Trusts to take a similar approach

Approval of transactions for salaries and other payments made to a person under a contract of employment are not included.

At cost requirements

A Trust **MUST** pay no more than 'cost' for goods or services provided by members of trustees of the academy trust and parties connected to them. Full cost **MUST NOT** include any profit and includes all direct costs and indirect costs (a reasonable proportion of overheads).

Contributions made by a Trust to its Diocese for services it receives are regarded as meeting the "at cost" requirement.

Recommendation

We recommend that the Trustees review the guidance on related party transactions and disclosures to the ESFA – this can be found at: -

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/811261/Academies_Financial_Handbook_2019.pdf

3. EXECUTIVE PAY AND SALARIES IN EXCESS OF £100,000

Observation

The ESFA have issued a series of letters to Academy Trust's which are paying salaries in excess of £150,000 and/or are paying salaries to 2 or more employees between £100,000 and £150,000.

Issue

The letters asked for further information on the rationale for the level of pay along with the due process followed for all such salaries.

The Academies Financial Handbook further strengthened the requirements of the Board who MUST discharge its responsibilities effectively by:-

- Determining executive pay is agreed by the Board in advance and documented
- Ensuring decisions reflect independent and objective scrutiny
- Ensuring factors in determining pay are clear
- Ensuring pay is defensible relative to the public sector market
- Documenting the rationale behind the decision making process
- Presuming that non-teaching pay should not increase at a faster rate than that of teachers
- Understanding that inappropriate pay can be challenged by ESFA

Recommendation

We recommend that the Trustees should review their policies on determining executive pay, review the ESFA's guidance for academies on setting executive pay (<https://www.gov.uk/government/news/esfa-introduces-guidance-for-academies-on-setting-executive-pay>) and ensure they include a robust evidenced based process.

4. GOVERNANCE

Observation

The Academies Financial Handbook 2019 has made changes to reinforce responsibilities for Trustees to discharge their responsibilities and ensure robust governance and effective financial management. The Chair of Trustees is responsible for ensuring effective functioning of the Board and setting professional standards of governance.

Issue

The Trustees must apply the highest standards of conduct and ensure robust governance, as these are critical for effective financial management. They should follow the Governance Handbook, which describes the following features of effective governance and will aid compliance with the Academies Financial Handbook:-

- strategic leadership that sets and champions vision, ethos and strategy
- accountability that drives up educational standards and financial performance
- people with the right skills, experience, qualities and capacity
- structures that reinforce clearly defined roles and responsibilities
- compliance with statutory and contractual requirements
- evaluation of governance to monitor and improve its quality and impact

The Chair is responsible for ensuring the effective functioning of the Board and for setting professional standards of governance and accountability for the Board. ESFA will help Chairs and their Boards to do this if required.

The Board should identify the skills and experience it needs, including financial knowledge, and address gaps through recruitment, and/or induction, training and other development activities. This is particularly important at key transition points. The board should also address this for local governing bodies. The Governance Handbook identifies training material to help Trustees develop and engage fully with their role. This includes a competency framework for governance that Trusts should refer to in determining whether they have skills gaps.

The Board and its committees must meet regularly enough to discharge their responsibilities and ensure robust governance and effective financial management. Board meetings must take place at least three times a year (and business conducted only when quorate), although Trusts should consider meeting more frequently. If the Board meets less than six times a year it must describe in its governance statement, accompanying its annual accounts, how it maintained effective oversight of funds with fewer meetings.

The Trust must be transparent with its governance arrangements.

The Trust must also publish on its website up-to-date details of its governance arrangements in a readily accessible format, including:-

- the structure and remit of the members, Board of Trustees, committees and local governing bodies (the Trust's scheme of delegation for governance functions), and the full names of the chair of each

- for each member serving at any point over the past 12 months, their full names, date of appointment, date they stepped down (where applicable), and relevant business and pecuniary interests including governance roles in other educational institutions
- for each Trustee and local governor serving at any point over the past 12 months, their full names, date of appointment, term of office, date they stepped down (where applicable), who appointed them, and relevant business and pecuniary interests including governance roles in other educational institutions. If the accounting officer is not a Trustee their business and pecuniary interests must still be published
- for each Trustee their attendance records at Board and committee meetings over the last academic year
- for each local governor their attendance records at local governing body meetings over the last academic year

Robust governance arrangements also include a robust control framework which must include the independent checking of financial controls, systems, transactions and risks. This is covered in more detail in section 5 below.

Recommendation

We recommend that the Trustees review their responsibilities and ensure that they comply with the new requirements.

5.1 INTERNAL AUDIT - PURPOSE

Observation

All Academy Trusts must have a programme of internal scrutiny to provide independent assurance to the board that its financial and non-financial controls, and risk management procedures, are operating effectively.

Issue

The Academies Financial Handbook 2019 (AFH) provides 4 options for Academy Trusts to conduct internal scrutiny, the work focusing on:-

- evaluating the suitability of, and level of compliance with, financial and other controls. This includes both evaluating whether controls and procedures are effective and efficient, and checking transactions to confirm that controls and procedures are being followed
- advice and insight to the board on how to address weaknesses in financial and other controls, recommending improvement, but without diluting the responsibility of management for the day to day running of the Academy Trust
- ensuring risks are adequately identified, reported and managed

The AFH, therefore, requires that Academy Trusts have effective oversight and monitoring of their internal control environment. The internal scrutiny function provides this.

Internal scrutiny should take account of output from other assurance procedures to inform the programme of work. It should have regard to recommendations from the Trust's external auditors as described in their management letter, and from relevant reviews undertaken by ESFA. It should also consider other non-financial areas such as GDPR, IT and health and safety.

Recommendation

We recommend that the Trustees should review their policies on internal audit scrutiny and ensure they include a robust evidenced based process.

5.2 INTERNAL AUDIT – DIRECTING AND DELIVERING

Observation

All Academy Trusts must have a programme of internal scrutiny to provide independent assurance to the board that its financial and others controls, and risk management procedures, are operating effectively.

Issue

Audit Committee

The Academy Trust must establish an audit committee, appointed by the Board. Trusts with an annual income over £50 million must have a dedicated audit committee. Other trusts must either have a dedicated audit committee or can combine it with another committee.

The audit committee should meet at least three times a year. The audit committee's role must include directing the Trust's programme of internal scrutiny and reporting to the Board on the adequacy of the Trust's financial and non-financial controls and management of risks.

Delivery

Internal scrutiny must: -

- be independent and objective – for example it **must not** be performed by the Trust's own accounting officer, chief financial officer or other members of the finance team
- be conducted by someone suitably qualified and experienced and able to draw on technical expertise as required
- be covered by a scheme of work, driven and agreed by the audit committee, and informed by risk
- be timely, with the programme of work spread appropriately over the year so higher risk areas are reviewed in good time
- include regular updates to the audit committee by the person or organisation carrying out the programme of work, incorporating
- a report of the work to each audit committee meeting, including recommendations where appropriate to enhance financial and other controls and risk management
- a short annual summary report to the audit committee for each year ended 31 August outlining the areas reviewed, key findings, recommendations and conclusions, to help the committee consider actions and assess year on year progress

The Trust **must** deliver internal scrutiny in the most appropriate way to its circumstances. These can include employing an in-house internal auditor; a bought-in internal audit service (under a separate letter of engagement if the internal and external audit is performed by the same firm); the appointment of a non-employed trustee and a peer review by the CFO or other member of the finance team from another academy trust. A combination of these options can also be used. However, those carrying out the programme of work need to be suitably qualified and/or experienced:-

- internal auditors should be members of a relevant professional body
- trustees and peer reviewers should have qualifications in finance, accounting or audit and appropriate internal audit experience.

Recommendation

We recommend that the Trustees should review their policies on internal audit scrutiny and ensure they include a robust evidenced based process.

5.3 INTERNAL AUDIT – REPORTING

Observation

All Academy Trusts must have a programme of internal scrutiny to provide independent assurance to the board that its financial and others controls, and risk management procedures, are operating effectively.

Issue

The Trust must confirm in its governance statement, accompanying its annual accounts, which of the internal scrutiny options it has applied and why. The outcome of the work must also inform the accounting officer's statement of regularity in the annual accounts.

The Trust must submit its annual summary report of the areas reviewed, key findings, recommendations and conclusions (as presented to the audit committee under section 3.15 by the person or organisation carrying out the programme of work) to ESFA by 31 December each year when it submits its audited annual accounts. The Trust must also provide ESFA with any other internal scrutiny reports if requested.

Recommendation

We recommend that the Trustees should review their policies on internal audit scrutiny and ensure they include a robust evidenced based process.

6. RISK REGISTER

Observation

The Academies Financial Handbook now states Trust **must** have a risk register in place and it **must** be maintained. Previously this was a “should” requirement. The risk register is a key document which should help drive the focus of the internal audit function.

Issue

Risk management involves the identification, measurement, management, monitoring and reporting of threats to an organisation’s business objectives. Such threats could arise from a wide variety of sources, including financial uncertainty, IT security, management errors, accidents, natural disasters, and so on.

Once risks have been identified, assessed, evaluated and ranked, academy trusts will need to ensure there are appropriate plans to manage them. These plans include preventative controls, mitigation processes and contingency plans in the event that risks materialise.

Once the academy trust has established its risk tolerance and capacity, it can move onto developing a risk control strategy. Again, there are various ways to do this and no one way is “right”, but one easy-to-follow approach is to consider the “**4 T’s**”.

- Tolerate
- Treat
- Transfer
- Terminate

The board (including any relevant sub-committee such as the finance or audit committee) should set out how and when it wants to receive information about risks. This reporting should provide reliable, current, complete and timely information, reflecting different risk types as well as emerging issues.

Recommendation

We recommend that the Trustees should review their risk register on a regular basis and ensure they include a robust evidenced based process.

7. TOP 10 PLANNING CHECKS

Observation

The ESFA have issued guidance on the Top 10 planning checks for governors.

Issue

School and academy governors can explore the questions to help schools manage their resources and money efficiently.

The areas covered are:-

1. Staff pay as a percentage of total expenditure
2. Average teacher cost
3. Pupil-to-teacher ratio (PTR)
4. Class sizes
5. Teacher contact ratio
6. Proportion of budget spent on the leadership team
7. 3 to 5 year budget projections
8. Spend per pupil for non-pay expenditure lines compared to similar schools
9. School improvement plan priorities and relative cost of options
10. List of contracts with costs and renewal dates

Trustees at schools and academies can use this information as a starting point to check if their school is managing resources and finances effectively.

Use these checks early in the annual budget planning cycle and when looking ahead at the 3 to 5 year position.

On many of these areas, you should be consulting your school business professional (who could be the business manager, or finance director equivalent, in your setting), as well as your headteacher or CEO.

Recommendation

We recommend that the Trustees should explore this guidance and further information can be found <https://www.gov.uk/guidance/school-resource-management-top-10-planning-checks-for-governors>

8. MANAGEMENT ACCOUNTS

Observation

The trust must prepare management accounts every month setting out its financial performance and position. Managers must take appropriate action to ensure ongoing viability.

Issue

Management accounts **must** be prepared every month (AFH2019 2.18) and **must** include an income and expenditure account, variation to budget report, cash flows and balance sheet as a bare minimum (AFH2019 2.21). Failure to include any of these reports would result in non-compliance with the AFH.

Management accounts **must** also select key financial performance indicators and measure their performance regularly (AFH2019 2.22). We would therefore recommend including these within your management accounts pack for Trustees to ensure this process takes place regularly. Some suggested KPI's can be found by reviewing the Top 10 Planning checks in section 7.

Management accounts must be shared with the chair of trustees every month irrespective of the trust's size, and with the other trustees six times a year. The board must consider these when it meets.

Recommendation

We recommend that the Trustees should ensure management accounts are prepared monthly.

9. CLERK TO THE BOARD

Observation

The ESFA have issued guidance on the benefits of engaging a knowledgeable clerk to the board to provide trustees with expert advice.

Issue

The academy trust should appoint a clerk to support the board of trustees who is someone other than a trustee, principal or chief executive of the trust. A clerk can help the efficient functioning of the board by providing:-

- administrative and organisational support
- guidance to ensure the board works in compliance with the appropriate legal and regulatory framework, and understands the potential consequences of noncompliance
- advice on procedural matters relating to operation of the board

Recommendation

We recommend that the Trustees should explore this guidance and further information can be found in the Academies Financial Handbook:-

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/811261/Academies_Financial_Handbook_2019.pdf

10. FINANCIAL SUMMARIES AND PROJECTIONS

Observation

Lord Agnew's letter to Academy auditors dated 30 April 2019 stated that *"It is important for academy trust management teams to produce an appropriate briefing for their boards when they table the accounts, not to outsource this to their auditors."*

Issue

A short financial summary will help ensure trusts have a solid base from which to construct robust three-year financial forecasts.

These are powerful as they bring together in a simple way all the important financial and audit issues that a board should be aware of at the time the accounts are signed.

Lord Agnew suggests that these reports should not be outsourced to your external auditors.

Recommendation

We recommend that you produce an appropriate briefing to your board when the accounts are tabled for approval. We would be happy to work with you to ensure the appropriateness of the report.

11. GOING CONCERN

Observation

The Academies Accounts Direction requires academy trustees to produce a statement on the academy trust's ability to continue to operate as a going concern, including disclosure of any financial uncertainties facing it.

Issue

With Academy Trust's facing a reduction in funding, combined with increased costs (such as Teachers Pension contributions), a reduction in reserves will occur. Accordingly, the ability for Trust's to be able to meet its obligations as they fall due will become more relevant.

Recommendation

We recommend that you review the ESFA's guidance and review the Trust's going concern status on an annual basis as it will assist in your budgetary process.
