

Sunflower Challenge

The rules

The aim is to grow the tallest sunflower, but to help you we've come up with a few simple rules.

1 seed per pot

It has to be grown in the office/school/university etc. You can put them outside but are not allowed to take them home.

Do not tamper or vandalise anyone else's.

You can do whatever you want to it to get it to grow, however wacky.

Everyone has to get their own bigger pots and soil for re-potting.

You don't all have to start growing your plants on the same day, people can still join in a week or two later. But don't leave it too long as your colleagues will have had head start.

We are doing this to help raise money for the JDRF charity for Juvenile Diabetes Research Foundation and for a house competition. We will enter one sunflower from each house in the JDRF charity competition.

Eddison and Beethoven and Zupan

WHO Get Big Sunflower to WIN ?

if you need help come see
